

# DISPENSING TOOL SELECTION GUIDE

Do you need a Manual or Power-Assisted dispensing tool?  
This guide is designed to help you make the right decision.

SELECTION FACTOR	TYPE	CAPACITY	MODEL
<b>STANDARD AIR-DRIVE</b> Lightest weight air gun. All metal construction, plated finish, scratch and rust resistant. Cartridge expander provides positive air seal. Full porting prevents piston upset. Perfect flow control, no air loss. Three-way air valve for instant pressure release. Air leak tested. Easy to assemble, clean and maintain.	<b>BULK</b>	2½ qt	200-5
	<b>BULK or CHUB</b>	10 oz	100-12
		20 oz	100-9
		1 qt	100-10
		<b>BULK EXTENSION</b>	1½ pt
		1 qt	700-G02
		2½ qt	720-G01
		2¾ qt	700-G03

	<b>1½" DIA POLY CARTRIDGE</b>	2½ oz	467-1, 467-2, 467-3
		6 oz	467-1, 467-2, 467-4
8 oz		467-1, 467-2, 467-5	
12 oz		467-1, 467-2, 467-6	

## DOUBLE-ACTION AIR

### PATENTED

Double-Action Air Cylinder operates piston to load and discharge material. Best balanced air gun. Isolated chambers eliminate air leakage into applied materials. Internal air lines. Pressure-relief valve for extra safety. Instant trigger action with 3-way valve.

<b>BULK</b>	1 qt	624-1
<b>CART. or BULK</b>	¼ gal	565-1
<b>CHUB</b>	10 or 20 oz	746-1

ALL PARTS ARE REPLACEABLE AND IN STOCK.  
BACKED BY ALBION'S COMMITMENT  
TO PROFESSIONAL QUALITY TOOLS.

# Air-Powered

## Air-Powered Drives

### FEATURES:

Best for perfect, even flow, without interruption.

Recommended for repetitive work where joints are uniform in size and shape.

Requires MINIMUM physical effort.

Ideal under factory conditions where air line is available.

# Manual

**Trigger-Actuated Manual Drive**

Trigger actuation provides a manual drive that can be operated with one hand.

**FEATURES:**

Portable...no hoses to carry.

Most adaptable for filling irregular joints.

Albion design provides dispensing with minimal effort.

Lower in cost than Air-Powered models.
