

A PRODUCT OF AUTOMATED PACKAGING SYSTEMS

## Introducing the Autobag PI 404i— In-line printing for simple and effective labels

Capable of imprinting at speeds of 4 inches per second, which equates to up to 35 bags per minute in-line, this programmable thermal transfer printing system has been designed to meet your basic barcode and text imprinting needs. The PI 404i is simple to use, dependable and operationally flexible to give maximum uptime and packaging productivity.

When used in conjunction with the Autobag AB 145 bagging system, product identification utilizing barcodes and text can be easily applied to individual packages in-line and indexed for product loading and sealing in a simple "Print-n-Pack" operation.

### User Benefits

- Simple set-up, easy to operate
- Prints label directly onto the bag eliminating the need for a separate labeling operation
- High-resolution printing for clear text and reliable barcodes
- Mechanical print registration control for simple label placement changes

### Standard Features

- In-line printing capability when interfaced with Autobag bagging equipment
- Print speeds up to 4 inches per second, or 35 bags per minute
- 203 DPI resolution for barcodes and text
- Maximum print area is 3.9 inches by 4 inches
- Compatible with a wide variety of media including polyethylene, polypropylene and DuraClear 2000 LLD
- Prints most UPC codes as well as Code 39, Code 128-A, B & C, Interleaved 2 of 5 and EAN-8 & 13
- True Type font support
- 16 resident printer fonts expand 12 times vertically and horizontally for customized labels

### Options

- AutoLabel™ software
- Ribbon out sensor
- Printhead alignment tool
- Spare parts kit

### Typical Applications

- Automotive & appliance parts
- Hardware & DIY
- Electrical & electronic
- Fasteners & connectors
- Plumbing & heating
- Hobby & craft
- Jewellery & novelty items
- Cosmetics & beauty aids
- Disposable health care
