Automatic L-Bar Sealer

Quality **PREMIUM MACHINERY** at a Reasonable **PRICE!**

Standard Sealer Features:

- Plugs into 120 Volt, 15 Amp.
- Variable Speed, Soft Start, Product Staging
- Auto-Reverse for tall Products
- Digital PLC with Touch Screen
- 4 ea 24 Volt DC, Brushless DC Motors
- 24 Volt DC, Motorized Center Seal Adjustment
- 24 Volt DC, Variable Speed Scrap Wind Motor
- Recipe driven Menu for repeatability of Jobs
- Horizontal & Vertical Product Sensors
- HI-Temperature Coated Steel Seal-Knives
- HI-Temperature Coated Film Clamps
- Soft-Pull External Variable Speed Scrap Wind with Dancer Bar & Proximity Shut-Off Switch
- Powder Coated Metal Surfaces

BUILT FOR SERIOUS PERFORMANCE

Automatic L-Bar Sealer

Technical Specifications :

Model No.: **AS-1722B Auto L-Bar Sealer**
Seal Area: **17" x 22" x 5" High**
Power Requirements: **120 VAC - 11 AMP**
Machine Footprint: **64"L"x 37"W"x 63H"**
Shipping Weight: **1000 LBS**

Model No.: **AS-1722C Auto L-Bar Sealer**
Seal Area: **17" x 22" x 5" High**
Power Requirements: **120 VAC - 11 AMP**
Machine Footprint: **64"L"x 37"W"x 63H"**
Shipping Weight: **1000 LBS**

Model No.: **AS-1722AC Auto L-Bar Sealer**
Seal Area: **17" x 22" x 7" High**
Power Requirements: **120 VAC - 11 AMP**
Machine Footprint: **64"L"x 37"W"x 63H"**
Shipping Weight: **1100 LBS**

Clean & Dry Compressed Air Required on all Models: 80 -100 Lbs. @ 4 CFM

□ This simple Automatic L-Bar Sealer is the perfect inexpensive step into Automation. The Heavy Duty Steel Sealing Blades and the Film Clamps are coated with a Hi-Tech durable Anti-Stick Coating to insure long life and strong Seals. **SEAL-A-TRON™** is proud to offer "Powder Coating" on all machines, which is the most durable paint finish the industry offers. The latest Technology PLC with a 6" Touch Screen allows absolute control of all machine functions.

□ The most innovative feature of these machines are the "Made in USA" 24 Volt DC brushless motors. Next best thing to "Servo Motors", they allow us to offer variable speed, soft start control and dynamic breaking as standard features. With the combination of innovative technology and **SEAL-A-TRON'S™** "Know-How", we have achieved a 20% increase in speed and performance over most competitors. With the right product, speeds of 40 packages per minute have been clocked.

□ Each application is different, and in many situations a proper infeed conveyor is needed to properly space your product, and thus eliminate product jams. Some applications are calling for a flighted infeed conveyor, however in most cases a standard belted infeed conveyor will suffice. **SEAL-A-TRON™** offers standard duty slave conveyors, that are controlled by the Automatic Sealer.
