Shipping Weight:	750 lbs

The Kombi-Rapper™ system, with sealer and tunnel on one frame, is equipped with all the Seal-A-Tron™ features that you have enjoyed in the past, plus much more!

Kombi-Rapper™ feature the EZ-PERF™ film venting system, MAG-LOK™ magnetic hold down, TRU-TEMP™ for precise seal wire control, and a Telescoping Product Loading Deck that makes it a snap to package your product. A Product Discharge Conveyor, with Soft Start Vari-Speed can be added at any time. This is truly Plug-N-Play.

The shrink tunnel features KOOL-TUCH™, our unique innovation, keeping the outside of the tunnel cool to the touch while our SURROUND AIR™ shrinks your product perfectly every time. A durable 1/4 HP blower motor with programmable overheat detection and COOL-DOWN™ cycle make the Kombi-Rapper™ the safest packaging system to date. Standard shrink tunnel conveyors are equipped with silicone covered 1/2" diameter live rollers, bearings and bushings which are virtually maintenance free. Optional hi-temp glass filled nylon belt is available.

Kombi-Rapper™ is controlled by a completely programmable micro processor which can be fine tuned to accommodate even the toughest applications. This versatile system can easily be equipped with our 5' long exit conveyor to take even the lightest product away from the tunnel exit preventing product jams.

Universal Adjustable Inverting Head (Optional)

DISTRIBUTED BY

Seal-A-Tron offers a 1-year warranty on equipment.
