

NEW!

Paragon *AccuSpeed*[™] Label Applicator

The pre-printed label applicator that meets your need for speed!

The Paragon AccuSpeed sets a whole new standard for pre-printed label application. In developing the AccuSpeed, Paragon leveraged its proven engineering expertise, labeling knowledge and dedication to high value to provide a machine that simply delivers more bang for the buck. From its fast 20 ips speed and full 14" label roll capacity to its PLC controller, quality stepper motor and built-in peel-tip sensing, AccuSpeed is a most reliable, powerful and versatile pre-printed label application solution.

The Dedicated Pre-printed Label Solution

Paragon AccuSpeed™ Specifications

Label Size	1/2" x 1/2" minimum, 5" x 18" maximum
Media Supply	14" (356mm) maximum outside diameter on 3" (76mm) standard core
Media Rewind	Roll-to-roll with full carrier rewind capacity
Low Media Supply Sensing	Standard detection and signal output when label supply is low
Product Detect Sensor	Standard photo electric product sensor; operator-adjustable delay between product detect and label application
Product Labeling Accuracy	Up to 1/32" with consistent labels and controlled carton handling
Air Requirements	30-80 PSI, 2cfm, clean, dry, non-oiled No air required when configured as a wipe unit.
Power Source Operating	115, 230 VAC, 60/50 Hz
Temperature	40° F to 100° (4° C to 38°)
Humidity	10% to 95%, non-condensing
Machine Constructions	1/2 plate aluminum
Dimension	18" L x 21" H x 11" D 457mm L x 533mm H x 279mm D
Weight	40 lbs. without stand
Controls	PLC Controlled
Display	Back lit programmable display
Peel Tip Sensing	Auto teach eye

Choice of Applicators

The Paragon AccuSpeed is a dedicated solution for quickly and accurately applying pre-printed labels to most any product, carton, case, tote or pallet. Compared to "high-end" label applicators, the AccuSpeed offers more standard features, high performance, proven engineering, built-in reliability and greater total value.

Plus, with Paragon's innovative modular design, a variety of applicator modules can be used to ensure the AccuSpeed continues to meet your needs as your pre-printed labeling needs change.

Easy access PLC controls

Standard Features

- Speeds to 20 IPS (inches per second)
- ± 1/32" accuracy
- PLC electronic controls
- Programmable back lit display
- Stepper motor drive
- Low label sensing
- 14" OD label supply with auto-rewind
- 1/2" Plate aluminum construction

Optional Features

- Warning light pole signals low supply
- T-Base stand
