

VXL-2000Z VXM-2000Z

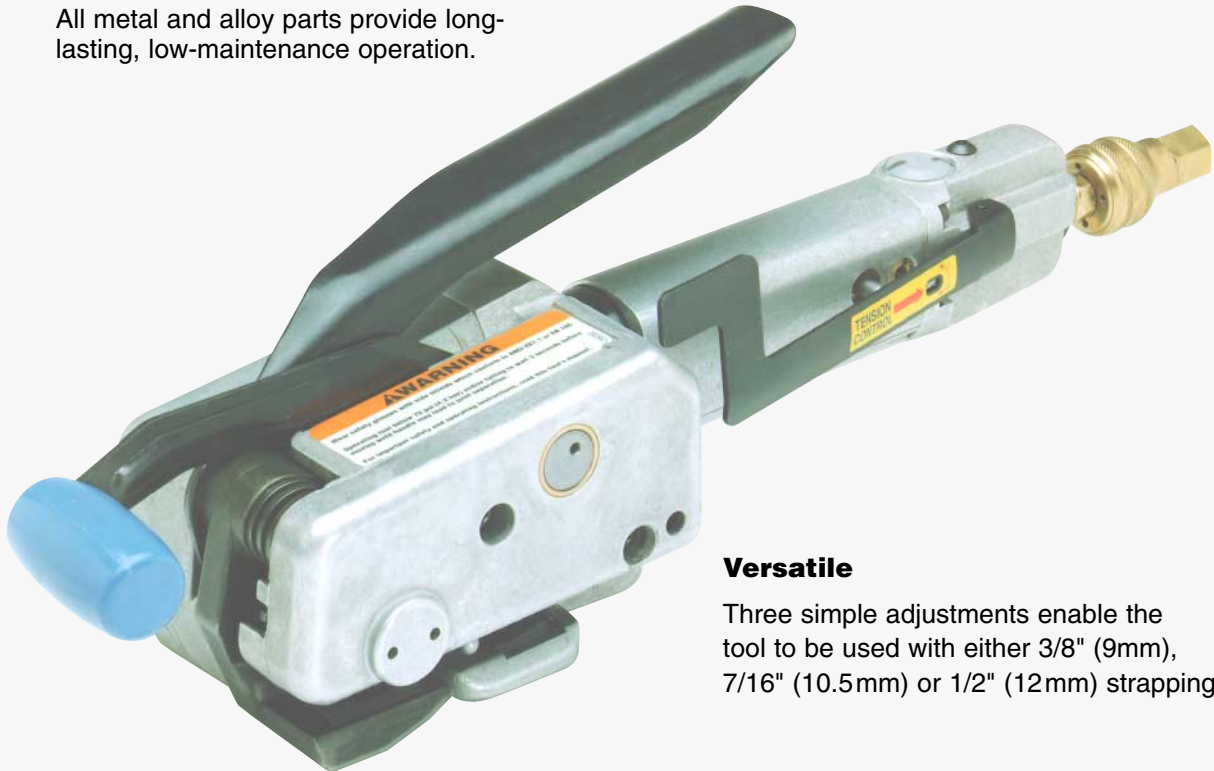

Pneumatic Tension-Weld® Combination Tool for Plastic Strapping

Reliable and durable

All metal and alloy parts provide long-lasting, low-maintenance operation.

Adjustable tension

Tension is easily adjustable without changing the air pressure.

Versatile

Three simple adjustments enable the tool to be used with either 3/8" (9mm), 7/16" (10.5mm) or 1/2" (12mm) strapping.

Made in the U.S.A.

Specifications:

For use on 3/8" (9mm),
7/16" (10.5mm) or 1/2" (12mm)
Dymax®, Contrax® and Tenax®
plastic strapping.

Tension: VXL—Up to 150 lbs.
VXM—Up to 250 lbs.

Base length: 5"

Weight: 7.5 lbs.

The VXL and VXM-2000Z pneumatic sealless combination tools are designed for 3/8" (9mm), 7/16" (10.5mm) or 1/2" (12mm) Dymax®, Contrax® and Tenax® plastic strapping. This versatile tool can be used on many general-purpose applications, as well as traditional applications in industries such as beverage container, corrugated, fibers and metals. Compared to other tools in their category, the VXL and VXM-2000Z are lighter and more durable.
